Professional Experience

Lee Oosthuizen and Smith Chartered accountants:

I have been there support Technician for about 2 years. I have helped them in setting up a Linux Novell SUSE 10.0 Samba Server Network for about 20 persons to access for there accounting needs and on my own have continued to maintain there needs.

I work extensively in the field selling and maintaining several clients computers from Windows 95 to Windows XP and have subsequently Bought Windows Vista. But my passion will always be Linux as it contains no running faults. I have a vast knowledge of Experience in Windows Faults and have built up a collection of repair tools to deal with just about anything.

In the last3 years I run my own Computer Business with my Father's assistance who is ex- Telkom. As you can see from the above. I would like to very much widen my Horizons, hence me applying for the Job I saw in the Ladysmith Gazette.

First Technology (PTY) LTD Computer and Peripherals Company
Phone Number (033) 8452300

Position: Technician

My Position was to Install new PC, Networks, and additional parts for Computers. Setting up Network software for a large WAN environment to Natalia Government Hospital Head Office.

Other Skills and computer knowledge

I am fully proficient in the following computer packages: Windows, Desktop Publishing, DOS, PC-DOS, Linux and DOS programming and am currently using Delphi object orientated programming. I am also knowledgeable in programming and macros in Lotus, Quattro Pro and Excel.

Activities and Interests

On a part-time basis, I am involved in repairing, upgrading and programming computers. I have my own home network, which contains Window 98, Windows 2000, Linux Samba Client and Server Networking, Windows NT4 and Windows 2000 server. I have also established my own Internet website. I also used to maintain Ladysmith web site at <http://www.ladysmith.co.za> and I have my own at <http://home.intekom.com/trustservice/> I enjoy being active and am a member of the Ladysmith Athletics Club.
